# MECO SEISMIC LTD

The New Zealand building code clause B1 structure requires all building elements to have a low probability of failure when exposed to loads likely to be experienced within the buildings useable life.

Meco seismic [NZ] Ltd has undertaken a number of buildings through out New Zealand in upgrades in structural steel to meet the code.

## Meco Seismic [NZ] Ltd

has experience and have adapted over the past 8 years our engineering expertise to carry out all requirements in Earth quake strengthening work coupled with extremely tight positioning of steel work and minimal damage to facades and cosmetic linings we are extremely proud of our team to meet our customers demands.
